

flash cleaner[®] machine

MADE IN ITALY

ONE MACHINE FOR ALL TYPES OF DPFs
ONE MACHINE FOR THE ENTIRE CLEANING CYCLE

Flash Cleaner Machine ensures the recovery of the original efficiency of the DPF, allowing you to save on expensive repairing or replacement of the DPF.

**flash cleaner[®]
machine**

**NO cutting the DPF
NO welding the DPF
NO baking the DPF
NO ultrasonic tanks**

- **Total removal of PM10 residuals**
 - **Removal of oil residuals**
 - **Removal of cerium residuals**
- **Efficient cleaning of all of the types of particulate filter and catalyst (cars and heavy goods vehicles, also SCR) of every size**
 - **Safety of the filter**
- **Preservation of the noble metals of the DPF and catalyst**
 - **No need to change the water but only to add it when it evaporates**
 - **Easy, fast and inexpensive**
